inner space from

plane. !

far out!

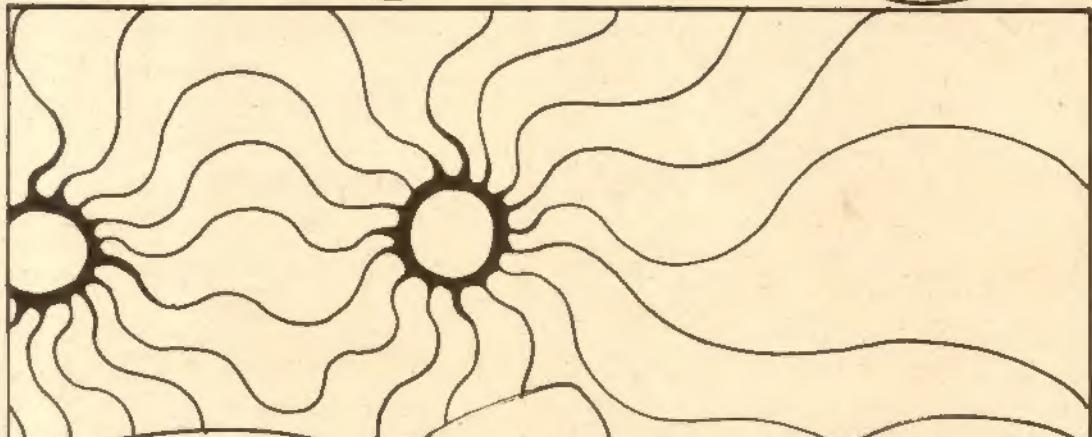

my mind has been over stimulated, and here in the astral plane,

where thought instantly affects the flow, my racing mind is propelling me chaotically through lower planes.

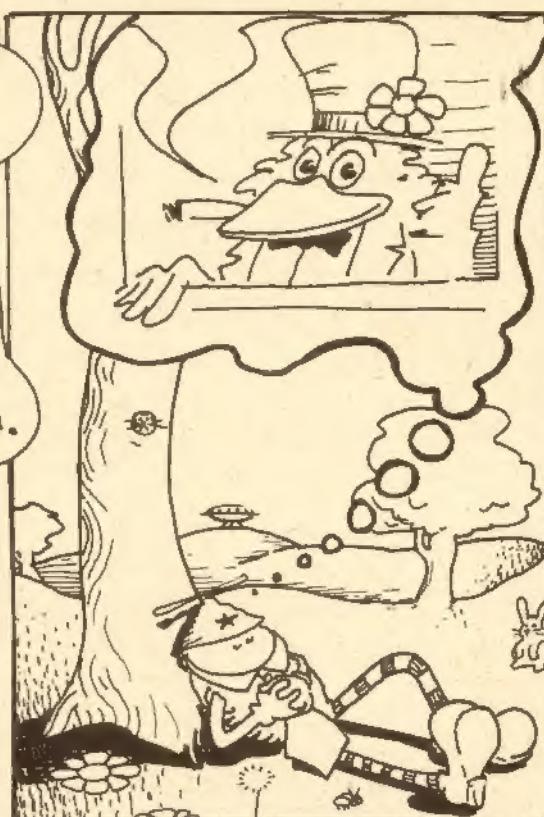

I must still my thoughts push them out of my consciousness and seek the oneness of the great white light!

good thing this boy knows the art of dying - as he stills the infinite levels of thought descending into the subconscious, his senses fuse

into structure receiving energy unclassified and making him one with all and also receptive to the enlightenment beneficial for terminating habits which anchor man

but this is a mind expansion principle and only one of the two bardos of changing your reality. it gives you the vision of higher being but the second phase requires mind-contraction and concentration in order to change the physical world which is the point of inertia of the mind, and which keeps bringing man back down.

my ego is afraid to wake up on this plane and desires to return to the familiar grey shadow world, but the braving of the little death has given me the know!

Wake up!

wake up, love!

huh?

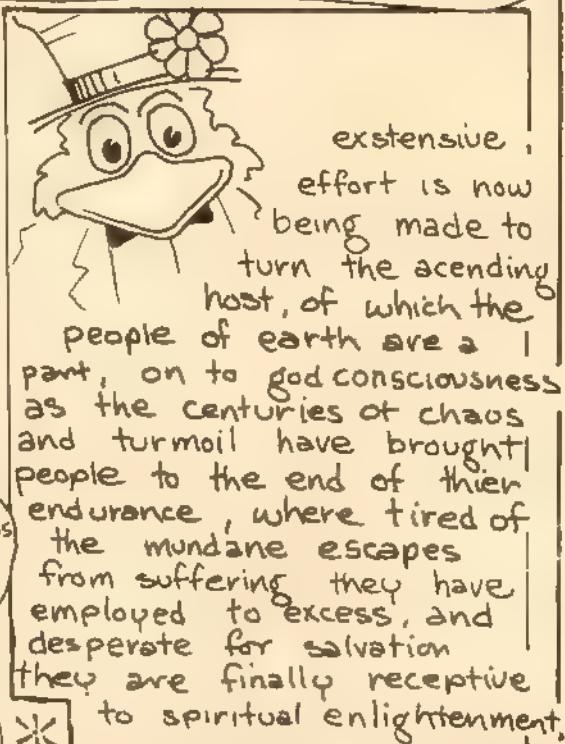

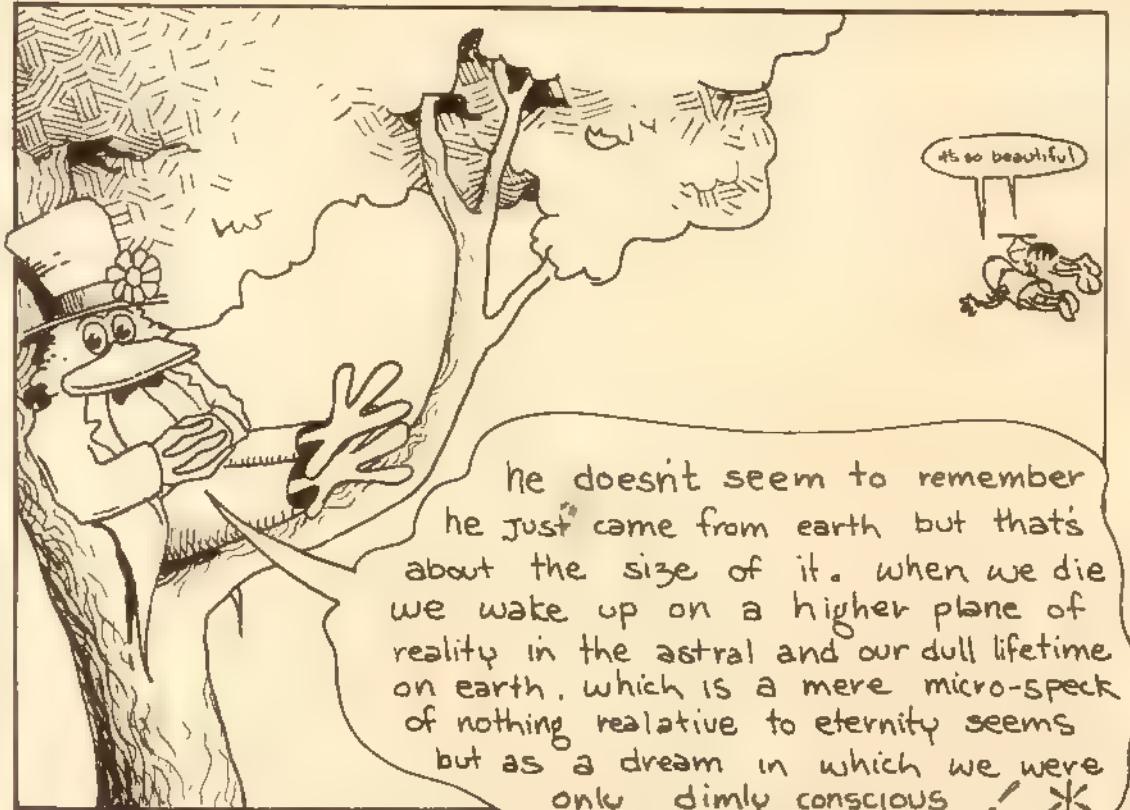

good morning love!

I had the strangest dream!

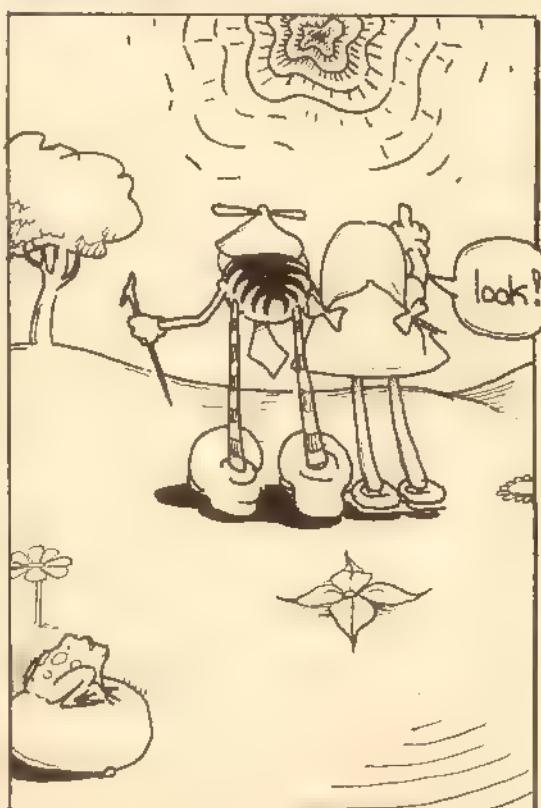

You slept half the day away!

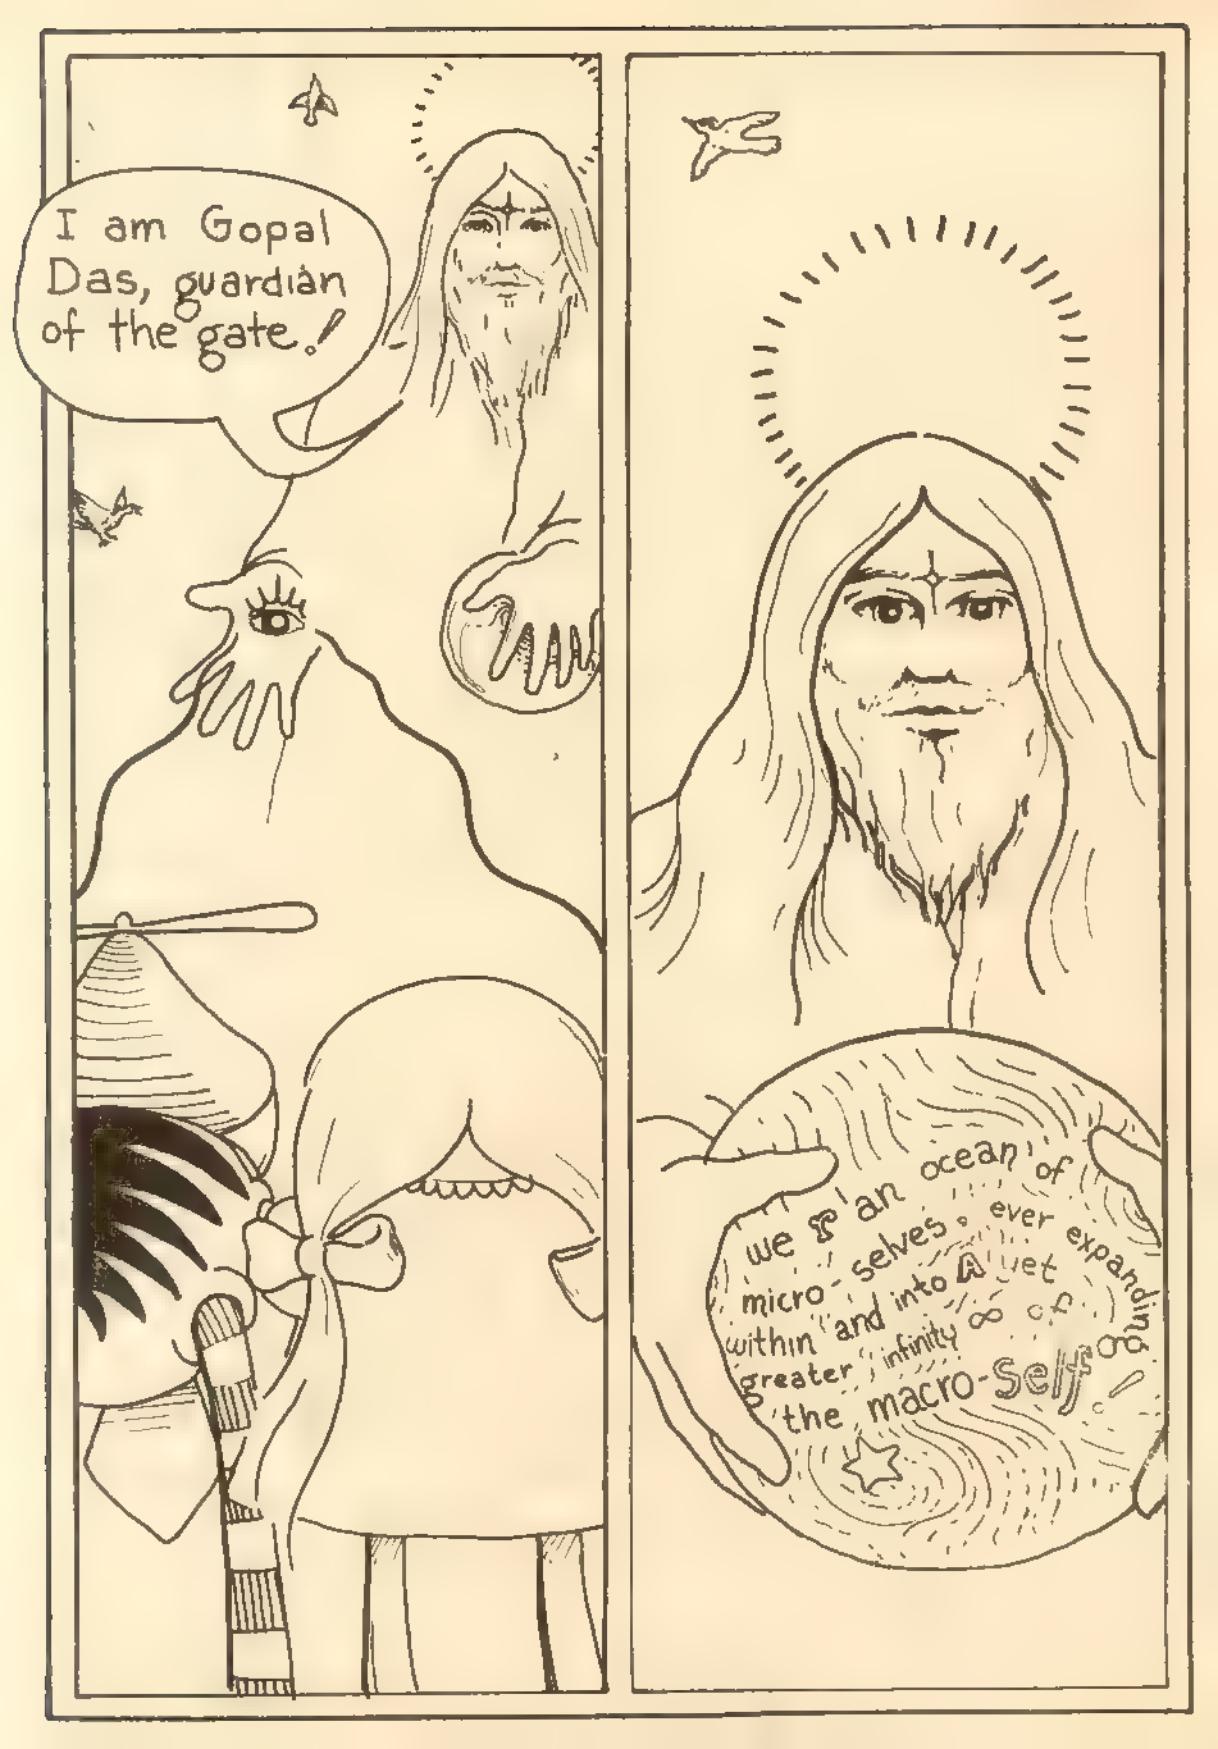

then let's
spend the rest
of the day in the
garden!

however this does not advocate
suicide, you have to stick it out!

I am Gopal
Das, guardian
of the gate!

we are an ocean of
micro-selves, ever expanding
within and into a yet
greater infinity of
the macro-Self.

the great Poles of
spirituality are respectively
fear and God,
no one having been born in a world
of fear; needs know the negative
death of Waltzing with Maya
but most do. "they
need
let go
only
(a) let the lower selves die
(b) be receptive to and accept
the birth of the higher selves

THE ONLY TIME we BLOW it is when

we react to fear

all of this is here for US - we are
too whatever we want, even everything

SACRIFICIOUS, is VULNERABLE FEAR

THAT HE IS NOT EVEN

AND while we think we are doing what
we want to, we are being dead,
unmanifesting, so don't identify
a self of you as your REAL SELF

clutching the gossamer web

you can only know yourself without
words something. Sure you PROBABLY READ
like this BEFORE SO When R

GOING TO manifest

that stuff INSIDE OF YOU You know what is it.

When? ?

You should do.

Sure you can cop out now, ride it out on your pleasure trips, but, transient, they become vehicles for negative energy. ^{to render} You DEAD while living, killed by polarity illusion. but never forever

we eventually all end up in the same highest reality - your actions determine when - now or after billions of billions of chaotic lifetimes in worlds of the dead.

So just to ~~blast~~ it  **SAFE** check it out!! strain your imagination + will. concieve of THE highest Reality  You can take control  drive into it. be sensible about the possibility of it's existence 

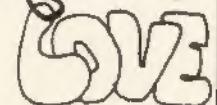

you need not even fear fear!

enough to warrant flowing in function as if you lived in heaven going step by step using the results of each step to reinforce belief in the tangibility of the next and you will be born into that world to find it has always existed as have all the worlds of conception. then you have set YOUR CONSCIOUSNESS VECTOR FOR (and dont be ^{sceptical}) ^{GOD} CONSCIOUSNESS

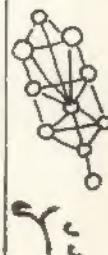

SO heres where you find out about ego! If you CAN'T DIE
You can transcend TRANSCENDANCE in finding the
'stealing the light' trancend trancendance opposite of ego
tao teaching trancend trancendance trancend trancendance
POLE POLE POLE

OF COURSE you do what you want now, you
DONT NEED GOD. HE aint goin to send
you to HELL IF YOU DONT BELIEVE.

But it will be that
will [^] Be **GAJ** You 

THE Pain of Pain had brought
YOU TO seeking understanding
had brought YOU to awareness of
your physical body (micro universe) and the 
ENTITIES OF THE CELESTIAL HIERARCHY
(macro universe) **CAUSE** they've got the
best gig and where you are right now
is cause of thier aid YOU WERE ALL ALONG
UNAWARE OF. So cultivate a **SENSE**
OF WHITE WONDER BEING! your
pains of birth will be left forever behind,
soon to be forgotten in an experience of
eternally, exponentially accelerating flow
of blissfull love functions! 

MAY YOU leave words behind!
